Memo Board

Hands Touching Hearts is a global outreach effort that gives Americans of all ages the opportunity to decorate handcrafted thank-you gifts for United States military personnel.

The ninth keepsake created for the Hands Touching Hearts gift collection is a memo board.

Made from styrofoam and fabric, the memo board measures 6.5" wide by 4.5" tall.

Like all program keepsakes, the memo board is designed to be transformed by the work of the decorator's hands. Program participants decorate the right side of this gift.

When finished, a decorator has two options:

1. Take the keepsake and present it to an active-duty service member, reservist or veteran that the decorator knows personally.

2. Have Ann M. Cosgrove, the originator of Hands Touching Hearts, surprise someone that the decorator doesn't know who has been both a member of the military and a first responder.
